PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building responsive, end-to-end web applications and delivering technical training. Skilled in frontend and backend development using HTML5, CSS3, JavaScript, and Bootstrap on the front end, and Python, Flask, PHP, MySQL, and SQLite on the back end. Comfortable translating Figma and Photoshop designs into production-ready interfaces. Currently developing ThreatReady, a live cybersecurity SaaS product at Aerovant Technologies, contributing across UI development, backend integration, testing, and deployment. Experienced across the full Software Development Life Cycle (SDLC) with hands-on Git/GitHub version control and cloud deployment, and a proven record of shipping client and academic projects and mentoring learners in modern web technologies.

TECHNICAL SKILLS

Programming Languages: Python, PHP, JavaScript, SQL

Application & API Support: Application Support, L1/L2 Support, Issue Triage, Troubleshooting, Root Cause Analysis, REST APIs, API Integration, Postman, HTTP Methods & Status Codes

Frontend Development: HTML5, CSS3, JavaScript, Bootstrap 5, Responsive Web Design, Cross-browser Compatibility

Backend Development: Python, Flask, PHP, REST APIs, Server-side Logic

Databases: MySQL, Database Design & Management, SQL Queries

Python & Data Analytics: Jupyter Notebook, NumPy, Microsoft Excel

Monitoring & Systems: Windows Administration, Linux Fundamentals, Application Monitoring, Logs & Metrics, System Installation, System Troubleshooting, IT Asset Management

Design & Prototyping: Figma, Adobe Photoshop, Wireframing, UI Mockups, Design-to-Code Implementation, Image Editing & Optimization, Shopify

Version Control & Tools: Git, GitHub, VS Code, Postman

Deployment & Hosting: Render, Cloud Hosting

Software Practices: SDLC, Code Review, Testing, Debugging, Problem Solving, Documentation & SOPs

Industrial Automation (Additional): PLC, SCADA, HMI, AutoCAD Electrical

WORK EXPERIENCE

Full Stack Developer

Feb 2026 – Present

Aerovant Technologies Private Limited, Krishnagiri, Tamil Nadu

- Develop full-stack features for ThreatReady, a live cybersecurity assessment SaaS platform, spanning responsive frontend interfaces and backend service integration.
- Build reusable, mobile-responsive UI components with HTML5, CSS3, JavaScript, and Bootstrap from Figma designs, improving usability across desktop, tablet, and mobile devices.
- Implement and integrate backend services and database operations to support core product functionality.
- Participate in code reviews, testing, and deployment pipelines, contributing to release quality and reduced production issues.
- Collaborate with the product team to translate business requirements into scalable, maintainable technical solutions.

Software Engineer | IT Trainer | IT Support Engineer

May 2023 – Jan 2026

Cadept Techys, Chennai, Tamil Nadu

- Delivered instructor-led training in HTML, CSS, JavaScript, Bootstrap, Python, and MySQL to 200+ learners, preparing them for entry-level web development roles.
- Designed and developed 10+ responsive websites and real-time academic and client projects using HTML5, CSS3, JavaScript, and Bootstrap.

- Authored training materials, assignments, and assessments using Microsoft Word, Excel, and PowerPoint, standardizing curriculum delivery and learner evaluation.
- Produced web graphics, banners, and UI mockups using Adobe Photoshop and Figma for client and institute projects.
- Provided end-to-end IT support — system troubleshooting, Windows installation, and maintenance — sustaining operational uptime for staff and lab systems. Administered system configuration, user accounts, data backups, and IT asset inventory.

Automation Engineer

Jul 2022 – Dec 2022

Pumo Technovation India Pvt Ltd, Chennai, Tamil Nadu

- Contributed to industrial automation projects involving PLC, SCADA, and HMI systems.
- Designed control panel layouts and electrical schematics using AutoCAD Electrical.

PROJECTS

ThreatReady — Cybersecurity Assessment SaaS Platform — Aerovant Technologies

- Contributing to full-stack development of a live cybersecurity assessment product, building responsive frontend interfaces and integrating backend services and database operations.

Tech: HTML5, CSS3, JavaScript, Bootstrap, Python, REST APIs | Live: threatready.io

Corporate Website — Aerovant Technologies

- Designed and developed the official company website presenting cloud solutions, cybersecurity services, and product portfolio.
- Built a responsive multi-page site (Home, About, Works, Career, Contact) with portfolio showcase, embedded map, and contact form.

Tech: HTML5, CSS3, JavaScript, Bootstrap 5, Responsive Web Design | Live: aerovanttech.com

RESVI — Retail Products Store

- Built a responsive single-page catalog website for a Krishnagiri retail store and Amazon dealer, with category-based browsing and WhatsApp enquiry integration for lead capture.

Tech: HTML5, CSS3, Bootstrap 5, JavaScript | Live: resventerprises.in

Business & Billing Website — Sri Lakshmi Mart

- Developed a responsive business website with product showcase, categories, and customer enquiry integration.

Tech: HTML5, CSS3, JavaScript, Bootstrap 5, Web3Forms | Live: srilakshmimart.com

Training Institute Website — Cadept Techys. Fully responsive institute website optimized for cross-browser compatibility and mobile responsiveness. Tech: HTML5, CSS3, Bootstrap, JavaScript. | Live: cadepttechys.com

Business Website — AP Guppy World. Professional business website with a modern UI, structured layouts, and optimized page performance. Tech: HTML5, CSS3, JavaScript, Bootstrap. | Live: apguppyworld

KEY ACCOMPLISHMENTS

- Delivered 10+ production web projects across retail, corporate, civic, and training domains, and deployed full-stack apps to cloud hosting (Render), including a role-based-access civic portal.
- Contributing to a live cybersecurity SaaS product end-to-end, from feature development through deployment.
- Trained 250+ learners in web development, with several progressing into technical roles.

EDUCATION

B.E, Electrical and Electronics Engineering (EEE)

2022

Adithya Institute of Technology | Score: 78%

CERTIFICATIONS

- Full Stack Web Development — Softlogic Systems, Chennai
- IBM Certified: JavaScript Fundamentals — IBM
